VERKAUFSBEDINGUNGEN / CONDITIONS DE VENTE

Allgemeine Verkaufs- und Lieferbedingungen der YOKOHAMA (SUISSE) SA

Verkaufs- und Lieferbedingungen

Wir liefern unsere Reifen mit voller gesetzlicher Garantie und gewährleisten dabei eine fachgerechte Konstruktion sowie die Verwendung von zweckentsprechenden Materialien. Wir übernehmen keine Haftung für Personen- oder Sachschäden, die aus Fehlern und Mängeln in der Fabrikation unserer Reifen entstehen, lehnen wir jede Verantwortung ab. Die Garantie, die wir für Fabrikationsfehler gewähren, beschränkt sich auf die Reparatur der beanstandeten Ware zu unseren Lasten oder auf den Ersatz der bemängelten Ware, unter Gewährung einer der erzielten Minderleistung entsprechenden Vergütung. Beanstandete Ware muss uns franko in Spreitenbach zur Begutachtung zugestellt werden. Vergütete defekte Ware fällt ohne weitere Entschädigung in unser Eigentum. Nur mit unserer schriftlichen Zustimmung dürfen von uns gelieferte Waren vom Kunden in dritte Länder weitergeliefert werden. Der Kunde haftet uns für aus einer Zuwiderhandlung entstehende Schäden. Unsere Waren reisen auf Gefahr des Empfängers. Sämtliche Preise dieser Liste sind ohne Verbindlichkeit und verstehen sich in Schweizer Franken. Die Zusendung dieser Liste ist nicht als Offerte anzusehen und verpflichtet uns nicht zur Lieferung. Durch diese Liste werden alle früheren aufgehoben. Wir sind berechtigt, die Preise ohne vorherige Anzeige zu ändern; für die Berechnung ist die am Liefertag gültige Liste massgebend.

Erfüllungsort und Gerichtsstand: Spreitenbach (Aargau).

Gelieferte Ware bleibt im Besitz der Yokohama (Suisse) SA, bis diese bezahlt ist.

Conditions générales de vente et de livraison de YOKOHAMA (SUISSE) SA

Conditions de vente et de livraison

Nous livrons nos pneus sous garantie légale entière. Cela signifie que nous nous engageons à livrer des pneus d'une construction conforme aux règles de l'art, en un matériel approprié. Nous déclinons toute responsabilité pour les accidents de personnes ou les dommages matériels pouvant résulter de défauts de fabrication de nos pneus. La garantie que nous accordons en cas de défauts de fabrication se limite à la réparation, à nos frais, de la marchandise défectueuse, ou au remplacement de celle-ci, par l'octroi d'une bonification correspondant à l'insuffisance de qualité constatée. Le client nous enverra franco à Spreitenbach, pour expertise, la marchandise dont il conteste la qualité. La marchandise défectueuse pour laquelle nous avons accordé une bonification devient notre propriété sans autre indemnité. Le client n'est autorisé à revendre à l'étranger la marchandise livrée qu'avec notre autorisation écrite. Le client répond à notre égard de tout préjudice dû à l'inobservation de ces prescriptions. Notre marchandise voyage aux risques et périls du destinataire. Les prix de ce prix-courant ne nous engagent pas et s'entendent en francs suisses. L'envoi du présent prix-courant ne doit pas être considéré comme une offre et ne nous engage pas à livrer. Le présent prix-courant annule tous les précédents. Nous nous réservons de modifier nos prix sans avis préalable; le prix-courant en vigueur le jour de la livraison est déterminant pour la facturation.

Lieu d'exécution et pour judiciaire : Spreitenbach (Argovie).

La marchandise livrée reste la propriété de Yokohama (Suisse) SA jusqu'à son paiement.

Geschwindigkeitseinfluss auf die Reifentragfähigkeit

Die Reifentragfähigkeit ist bei V-, W-, Y- und ZR-Reifen abhängig von der Fahrzeughöchstgeschwindigkeit. V-Reifen haben bis 210 km/h, W- und ZR-Reifen bis 240 km/h und Y-Reifen bis 270 km/h die jeweils dem Reifen zugeordnete maximale Tragfähigkeit. Bei Geschwindigkeiten oberhalb 210 km/h, 240 km/h bzw. 270 km/h werden Tragfähigkeitsabschläge vorgenommen. Bei ZR-Reifen über 270 km/h werden die jeweiligen Tragfähigkeiten individuell ermittelt.

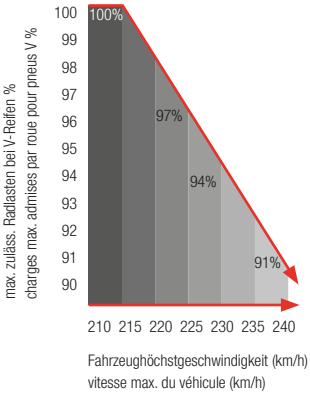

Influence de la vitesse sur la capacité de charge du pneu

Pour les pneus V, W, Y et ZR, la capacité de charge du pneu dépend de la vitesse maximale du véhicule. La capacité de charge autorisée pour les pneus V jusqu'à 210 km/h, W et ZR jusqu'à 240 km/h et Y jusqu'à 270 km/h est donnée chaque fois par le type de pneu. Pour des vitesses supérieures à 210 km/h, 240 km/h ou 270 km/h, cette capacité de charge est abaissée. Au-delà de 270 km/h avec des pneus ZR, la capacité de charge doit être calculée de cas en cas.

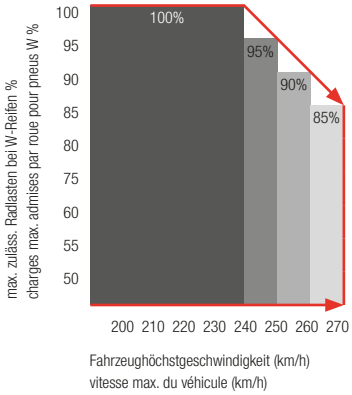

ZR-Reifen I pneus ZR

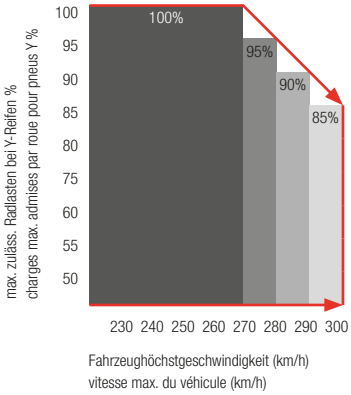

V-Reifen I pneus V

W-Reifen I pneus W

Y-Reifen I pneus Y

Lesebeispiel ZR-Reifen: Bei einer Fahrzeughöchstgeschwindigkeit von 250 km/h beträgt die max. zulässige Reifentragfähigkeit 95%.
Exemple pour des pneus ZR: Pour une vitesse maximale du véhicule de 250 km/h, la capacité de charge max. admise est de 95%.

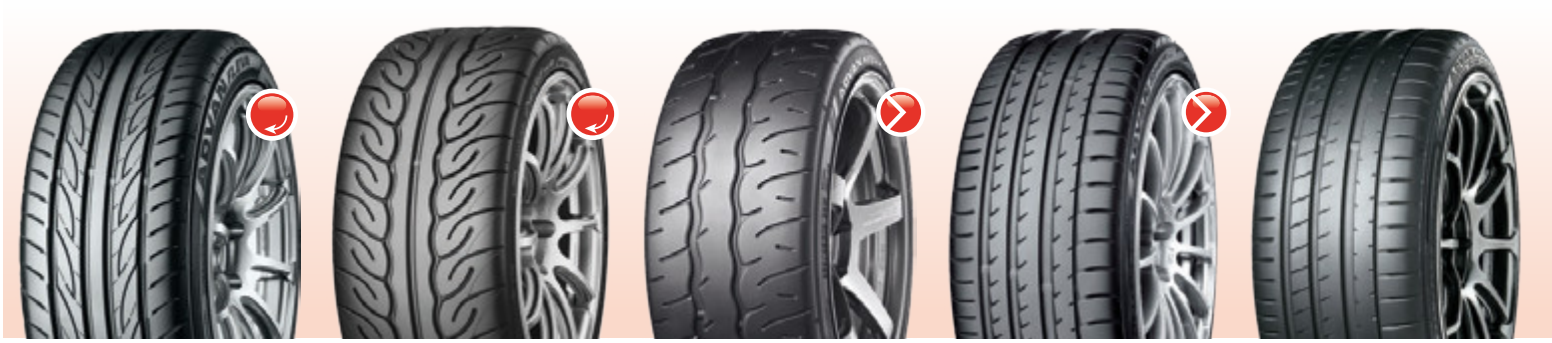

Farbmarkierungen auf der Reifenflanke / Marquages en couleur sur le flanc du pneu

● ▲	Roter Punkt / rotes Dreieck: Point rouge / triangle rouge:	„RFV" max. Wert, auf den Rundlauf bezogen. Mit Minimum des Höhenschlages des Rades montieren. „RFV" valeur max., par rapport à la concentricité. A monter au point minimum de faux-rond de la jante.
○ ◎	Weisser Punkt / weißer Kreis: Point blanc / cercle blanc:	„RFV" min. Wert, auf den Rundlauf bezogen (nur OE Porsche). Mit Maximum des Höhenschlages (oder 180° verdreht mit Minimum) des Rades montieren. „RFV" valeur min., par rapport à la concentricité. (Porsche en première monte uniquement). A monter au point maximum de faux-rond (ou tourné à 180° avec le minimum) de la jante.
● ▲	Gelber Punkt / gelbes Dreieck: Point jaune / triangle jaune:	Static Unbalance, leichteste Stelle bzw. Punkt am Reifen. Bei Montage diese Markierung zur schwersten Stelle des Rades (Felge) in Position bringen. Static Unbalance, endroit ou point le plus léger du pneu. Au montage, cette indication est à placer à l'endroit ou au point le plus lourd de la jante.

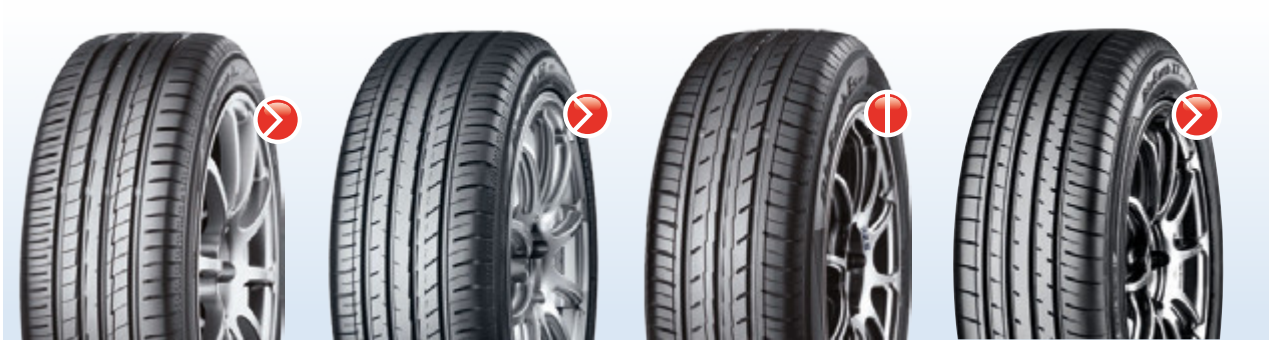

Montagehinweis auf der Reifenflanke / Indications sur le flanc pour le montage

	Symmetrische Profile: Profils symétriques:	keine Angaben aucune indication
	Asymmetrische Profile: Profils asymétriques:	Side Facing Outwards (Aussenflanke / flanc extérieur) Side Facing Inwards (Innenflanke / flanc intérieur)
	Laufrichtungsgebundene Profile: Profils directionnels:	Rotation mit Pfeil (in Laufrichtung) rotation avec flèche (dans le sens de marche)

XL = Extra Load
ZPS = Zero Pressure System (Runflat Tyre Characteristics)
EMT = Extended Mobility Tyre
(F) = Front Axle
(R) = Rear Axle
- = Tyre does not bear this pictogram
Category = C1: Passenger car tyres, C2: Light commercial vehicle tyres, C3: Heavy commercial vehicle tyres

See section "Technical Information" about how to read the Tyre Code.
For information about the start and end date of production of these tyres, information about the tyre type identifier and further technical aspects, please refer to the official product information sheet, which can be provided to you by your tyre dealer. A link to the public part of the European product database for Energy Labelling (EPREL), where you can access the product information sheet and the EU tyre label, is also provided via the YOKOHAMA website (www.yokohama.eu).

Fuel Efficiency Class
The fuel efficiency class ranges from A (most efficient) to E (least efficient). A top class tyre has less rolling resistance and therefore requires less energy to move the vehicle. This translates into lower energy costs (fossil fuels or electricity).

Wet Grip Class
The wet grip describes a tyre's performance under wet conditions and its classes ranges as well from A (shorter braking distance on wet asphalt) to E (longest).

External Rolling Noise Class and Measured Value (dB)
The external rolling noise class ranges from A (less noise outside the vehicle) to C (highest noise). The external rolling noise, caused by tyres, is measured in decibels. This noise is different from the "cavity noise", which is the noise transmitted from the rims to the interior of the car.

Under the new regulation, in addition to the previous tyre label, there are also options for including an icon relating to grip on icy conditions and/or severe snow conditions in the bottom part of the tyre label (next to the external rolling noise pictogram) for tyres which satisfy the minimum snow grip index values or the relevant minimum ice grip index values.

Tyres suitable for severe snow conditions bear the snow grip pictogram ("3 Peak Mountain Snowflake") or "alpine" symbol that is also present on the sidewall of such tyres. Nordic winter tyres (tyre class C1) for use on iced surfaces will feature a symbol (ice grip pictogram) that represents an ice stalagmite.

(R) = Rear Axle
√ = Tyre bears this pictogram
- = Tyre does not bear this pictogram
Category = C1: Passenger car tyres, C2: Light commercial vehicle tyres, C3: Heavy commercial vehicle tyres

See section "Technical Information" about how to read the Tyre Code.
For information about the start and end date of production of these tyres, information about the tyre type identifier and further technical aspects, please refer to the official product information sheet, which can be provided to you by your tyre dealer. A link to the public part of the European product database for Energy Labelling (EPREL), where you can access the product information sheet and the EU tyre label, is also provided via the YOKOHAMA website (www.yokohama.eu).

Fuel Efficiency Class
The fuel efficiency class ranges from A (most efficient) to E (least efficient). A top class tyre has less rolling resistance and therefore requires less energy to move the vehicle. This translates into lower energy costs (fossil fuels or electricity).

Wet Grip Class
The wet grip describes a tyre's performance under wet conditions and its classes ranges as well from A (shorter braking distance on wet asphalt) to E (longest).

External Rolling Noise Class and Measured Value (dB)
The external rolling noise class ranges from A (less noise outside the vehicle) to C (highest noise). The external rolling noise, caused by tyres, is measured in decibels. This noise is different from the "cavity noise", which is the noise transmitted from the rims to the interior of the car.

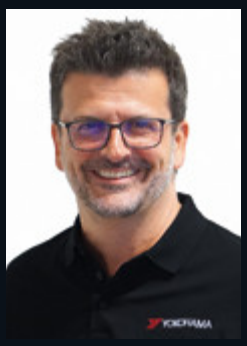

Under the new regulation, in addition to the previous tyre label, there are also options for including an icon relating to grip on icy conditions and/or severe snow conditions in the bottom part of the tyre label (next to the external rolling noise pictogram) for tyres which satisfy the minimum snow grip index values or the relevant minimum ice grip index values.

Tyres suitable for severe snow conditions bear the snow grip pictogram ("3 Peak Mountain Snowflake") or "alpine" symbol that is also present on the sidewall of such tyres. Nordic winter tyres (tyre class C1) for use on iced surfaces will feature a symbol (ice grip pictogram) that represents an ice stalagmite.

Ihr YOKOHAMA Team | Votre équipe YOKOHAMA

Unsere Auftragsannahme ist von Montags bis Freitags von 07.30 bis 12.00 Uhr und von 13.00 bis 17.30 Uhr (Freitags 17:00 Uhr) für Sie da. Bestellungen bis 17:00 Uhr (Freitags bis 16:30 Uhr) werden in der Regel am nächsten Arbeitstag ausgeliefert. Bitte entnehmen Sie Ihren jeweiligen Ansprechpartner in der unten stehenden Liste. Natürlich können Sie Ihr Anliegen auch an die u.g. E-Mail-Adressen senden.

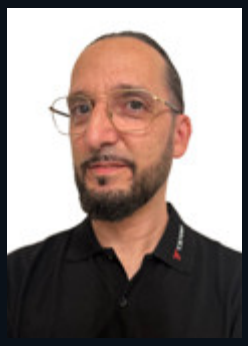

Réception de commandes du lundi au vendredi de 07h30 à 12h00 et de 13h00 à 17h30 (le vendredi jusqu'à 17h00). Les commandes effectuées jusqu'à 17h00 (le vendredi jusqu'à 16h30) sont en principe livrées le jour ouvrable suivant. Selon les fonctions de chacune des personnes présentées ci-dessous, vous avez la possibilité de les contacter directement. Vous pouvez aussi nous faire parvenir vos demandes par e-mail aux adresses respectives.
